

Bird refuge plants

Prickly plants make ideal refuge for small birds and provide safe nesting sites in suburban gardens where cats often prey on native birds. These plants can also be used effectively as pedestrian barriers.

- *Acacia continua*
- *Acacia oswaldii*
- *Acacia paradoxa*
- *Acacia spinescens*
- *Acacia verticillata*
- *Acacia victoriae*
- *Banksia ashbyi*
- *Banksia baueri*
- *Banksia baxteri*
- *Banksia caleyi*
- *Banksia praemorsa*
- *Banksia victoriae*
- *Bursaria spinosa*
- *Callistemon brachyandrus*
- *Callistemon teretifolius*
- *Daviesia ulicifolia*
- *Dryandra praemorsa*
- *Dryandra quercifolia*
- *Eutaxia microphylla*
- *Grevillea 'Canberra Gem'*
- *Grevillea 'Clearview David'*
- *Grevillea 'Glen Sandra'*
- *Grevillea ilicifolia*
- *Grevillea intricata*
- *Grevillea juniperina* upright form
- *Grevillea lavandulacea* (some forms)
- *Grevillea manglesii*
- *Grevillea pinaster*
- *Grevillea 'Pink Lady'*
- *Grevillea 'Pryor's Hybrid'*
- *Hakea carinata*
- *Hakea leucoptera*
- *Hakea nodosa*
- *Hakea rostrata*
- *Hakea rugosa*
- *Hakea vittata*
- *Isopogon ceratophyllus*
- *Isopogon dubius*
- *Isopogon formosus*
- *Leptospermum continentale*
- *Leptospermum 'Horizontalis'*
- *Melaleuca squarrosa*
