

Firewood or timber species

These species are useful as either firewood, construction timber, or craft timber. Species selection for commercial woodlotting needs to take into consideration site characteristics such as rainfall, soil type, frost intensity, and wind exposure.

As well as using this guide, it is recommended that advice is sought from staff at State Flora Revegetation Section, or from Farm Forestry advisors in PIRSA. There are several relevant South Australian-orientated publications available including; Farmtrees for the Mount Lofty Ranges – A regional agroforestry handbook by P. Bullman, PIRSA (1995), and Economic Native Trees and shrubs for South Australia by N. Bonney, Greening of Australia, SA, (1997).

- *Acacia acuminata*
- *Acacia aneura*
- *Acacia dealbata*
- *Acacia decurrens*
- *Acacia mearnsii*
- *Acacia melanoxylon*
- *Acacia oswaldii*
- *Acacia papyrocarpa*
- *Acacia pendula*
- *Acacia pycnantha*
- *Acacia stenophylla*
- *Allocasuarina decaisneana*
- *Allocasuarina luehmannii*
- *Allocasuarina torulosa*
- *Allocasuarina verticillata*
- *Angophora costata*
- *Angophora floribunda*
- *Callitris glaucophylla*
- *Callitris gracilis*
- *Casuarina cunninghamiana*
- *Casuarina obesa*
- *Casuarina pauper*
- *Corymbia calophylla*
- *Corymbia citriodora*
- *Corymbia eximia*
- *Corymbia maculata*
- *Davidsonia pruriens*
- *Eucalyptus albens*
- *Eucalyptus alborpurpurea*
- *Eucalyptus astringens*
- *Eucalyptus baxteri*
- *Eucalyptus botryoides*
- *Eucalyptus brockwayi*
- *Eucalyptus calcareana*
- *Eucalyptus caleyi*
- *Eucalyptus camaldulensis* (all forms)
- *Eucalyptus cladocalyx* (both forms)
- *Eucalyptus clelandii*
- *Eucalyptus cneorifolia*
- *Eucalyptus conglobate*
- *Eucalyptus coolabah* ssp. *Arida*
- *Eucalyptus cornuta*
- *Eucalyptus cosmophylla*
- *Eucalyptus cyanophylla*
- *Eucalyptus dalrympleana*
- *Eucalyptus diversifolia*
- *Eucalyptus Dumosa*
- *Eucalyptus dundasii*
- *Eucalyptus fasciculosa*
- *Eucalyptus globulus* (all forms)
- *Eucalyptus gomphocephala*
- *Eucalyptus goniocalyx*
- *Eucalyptus gracilis*
- *Eucalyptus grandis*
- *Eucalyptus gunnii*
- *Eucalyptus incrassata* var. *incrassata*
- *Eucalyptus intertexta*
- *Eucalyptus kondininensis*
- *Eucalyptus largiflorens*
- *Eucalyptus leptophylla*
- *Eucalyptus lesouefii*
- *Eucalyptus leucoxylon* (all ssp.)
- *Eucalyptus marginata*
- *Eucalyptus melanophloia*

- *Eucalyptus melliodora*
- *Eucalyptus microcarpa*
- *Eucalyptus microcorys*
- *Eucalyptus nicholii*
- *Eucalyptus obliqua*
- *Eucalyptus occidentalis*
- *Eucalyptus odorata*
- *Eucalyptus oleosa* ssp. *oleosa*
- *Eucalyptus petiolaris*
- *Eucalyptus phenax* ssp. *phenax*
- *Eucalyptus platypus* (both forms)
- *Eucalyptus porosa*
- *Eucalyptus punctata*
- *Eucalyptus regnans*
- *Eucalyptus rugosa*
- *Eucalyptus saligna*
- *Eucalyptus salmonophloia*
- *Eucalyptus salubris*
- *Eucalyptus sideroxylon*
- *Eucalyptus sideroxylon* 'Rosea'
- *Eucalyptus socialis*
- *Eucalyptus stricklandii*
- *Eucalyptus torquata*
- *Eucalyptus viminalis* (both ssp.)
- *Eucalyptus viridis*
- *Eucalyptus wandoo*
- *Grevillea robusta*
- *Lophostemon confertus*
- *Melaleuca armillaris*
- *Melaleuca halmaturorum*
- *Melaleuca lanceolata*
- *Melaleuca styphelioides*
- *Melaleuca uncinata*
- *Podocarpus elatus*
- *Santalum spicatum*
- *Toona ciliate*
