

Front-line coastal plants

The following plants are tolerant of full coastal exposure with foliage that is able to withstand salt spray. The soils of some South Australian coastal regions can be quite alkaline (limestone-derived; high pH), therefore it is important to cross-refer to the main catalogue to check the alkalinity tolerance of plants listed. In most cases those plants that are indigenous to your region are the best suited to withstand both the coastal exposure and the soil conditions.

- *Acacia argyrophylla*
- *Acacia cupularis*
- *Acacia ligulata*
- *Acacia longifolia* var. *sophorae*
- *Acacia maxwellii*
- *Adenanthos sericeus*
- *Adriana quadripartita*
- *Agonis flexuosa*
- *Agonis flexuosa* 'Nana'
- *Allocasuarina verticillata* (coastal)
- *Alyxia buxifolia*
- *Atriplex cinerea*
- *Atriplex nummularia*
- *Banksia blechnifolia*
- *Banksia integrifolia*
- *Banksia media*
- *Banksia praemorsa*
- *Billardiera cymosa*
- *Callistemon* 'Harkness'
- *Callistemon rugulosus*
- *Callitris gracilis* (coastal form)
- *Chrysocephalum apiculatum*
- *Correa alba*
- *Correa alba* var. *pannosa*
- *Correa pulchella* 'Minor'
- *Correa reflexa*
- *Correa reflexa* var. *nummulariifolia*
- *Disphyma crassifolium* ssp. *clavellatum*
- *Enchylaena tomentosa*
- *Eremophila glabra* forms
- *Eremophila maculata* forms
- *Eucalyptus albopurpurea*
- *Eucalyptus calcareana*
- *Eucalyptus cneorifolia*
- *Eucalyptus conferruminata*
- *Eucalyptus diversifolia*
- *Eucalyptus gomphocephala*
- *Eucalyptus incrassata* var. *incrassata*
- *Eucalyptus leucoxylon* ssp. *megalocarpa*
- *Eucalyptus platypus* var. *heterophylla*
- *Eucalyptus robusta*
- *Eucalyptus rugosa*
- *Frankenia pauciflora*
- *Goodenia varia*
- *Grevillea olivacea*
- *Grevillea* 'Red Sunset'
- *Grevillea* 'Winpara Gem'
- *Grevillea* 'Winpara Gold'
- *Hakea drupacea*
- *Hibbertia platyphylla* ssp. *platyphylla*
- *Hibbertia scandens*
- *Isolepis nodosa*
- *Ixodia achillaeoides* ssp. *achillaeoides*
- *Juncus kraussii*
- *Kennedia rubicunda*
- *Kunzea ambigua*
- *Kunzea pomifera*
- *Lagunaria patersonii*
- *Lasiopetalum discolor*
- *Lasiopetalum schulzenii*
- *Leucophyta brownii*
- **Melaleuca armillaris*
- *Melaleuca halmaturorum*
- *Melaleuca huegellii*
- *Melaleuca hypericifolia*
- *Melaleuca lanceolata*
- *Melaleuca nesophila*
- *Myoporum insulare*
- *Myoporum* 'Monaro Marvel'
- *Myoporum parvifolium*

- *Olearia axillaris*
- *Pimelea ferruginea*
- *Rhagodia spinescens*
- *Scaevola aemula* (Marion Bay Form)
- *Scaevola crassifolia*
- *Templetonia retusa*
- *Thomasia petalocalyx*
- *Westringia dampieri*
- *Westringia fruticosa*

* This plant has been identified as potentially invasive in some areas.
