

Plants to control gully erosion or wind erosion

Plants listed here can be used to control erosion, and if planted on eroded sites can help to stabilise soils and prevent further damage. Species that tolerate wetter sites are useful for controlling gully erosion (Ge), while others are particularly useful for wind eroded (We) sites. Information on species selection and effective planting strategies can be obtained from PIRSA staff, Landcare Officers, and local Soil Boards.

- *Acacia acuminata* (Ge)
- *Acacia aneura* (We)
- *Acacia argyrophylla* (We)
- **Acacia baileyana* (Ge)
- *Acacia boormanii* (Ge)
- *Acacia calamifolia* (Ge, We)
- *Acacia cupularis* (We)
- **Acacia cyclops* (We)
- *Acacia dealbata* (Ge)
- **Acacia decurrens* (Ge)
- *Acacia floribunda* (Ge)
- *Acacia glandulicarpa* (We)
- *Acacia hakeoides* (Ge)
- *Acacia ligulata* (We)
- *Acacia longifolia* var *sophorae* (We, Ge)
- *Acacia melanoxylon* (Ge)
- *Acacia paradoxa* (Ge, We)
- *Acacia pravissima* (Ge)
- *Acacia pycnantha* (Ge)
- *Acacia retinodes* (Ge)
- *Acacia salicina* (Ge)
- *Acacia stenophylla* (Ge)
- *Acacia triquetra* (Ge)
- *Acacia victoriae* (We)
- *Agonis flexuosa* (We)
- *Alectryon oleifolius* (We)
- *Allocasuarina muelleriana* (Ge)
- *Allocasuarina verticillata* (We)
- *Atriplex cinerea* (We)
- *Atriplex nummularia* (We)
- *Atriplex rhagodioides* (We)
- *Baeckea behrii* (We)
- *Banksia baueri* (We)
- *Banksia media* (We)
- *Banksia nutans* (We)
- *Brachychiton populneus* (Ge)
- *Bursaria spinosa* (Ge)
- *Callistemon brachyandrus* (Ge)
- *Callistemon citrinus* (Ge)
- *Callistemon 'Harkness'* (Ge)
- *Callistemon rugulosus* (Ge)
- *Callistemon salignus* (GE)
- *Callistemon sieberi* (Ge)
- *Callistemon viminalis* (Ge)
- *Callitris glaucophylla* (We)
- *Callitris gracilis* (We)
- *Callitris rhomboidea* (Ge)
- *Casuarina cunninghamiana* (Ge)
- *Casuarina obesa* (Ge)
- *Casuarina pauper* (We)
- *Disphyma crassifolium* ssp. *clavellatum* (We)
- *Dodonaea viscosa* (most ssp. We)
- *Eremophila bignoniiflora* (Ge)
- *Eremophila longifolia* (We)
- *Eucalyptus baxteri* (We)
- *Eucalyptus botryoides* (Ge)
- *Eucalyptus brachycalyx* (We)
- *Eucalyptus calcareana* (We)
- *Eucalyptus camaldulensis* (Ge)
- *Eucalyptus calycogona* (We)
- *Eucalyptus cneorifolia* (We)
- *Eucalyptus conferruminata* (We)

- *Eucalyptus congolbata* (We)
- *Eucalyptus cosmophylla* (Ge)
- *Eucalyptus cyanophylla* (We)
- *Eucalyptus diversifolia* (We)
- *Eucalyptus dumosa* (We)
- *Eucalyptus eremophila* (We)
- *Eucalyptus fasciculoas* (Ge)
- *Eucalyptus flocktoniae* (We)
- *Eucalyptus formanii* (We)
- *Eucalyptus gracilis* (We)
- *Eucalyptus grandis* (Ge)
- *Eucalyptus incrassata* (We)
- *Eucalyptus kondiniensis* (We)
- *Eucalyptus largiflorens* (We)
- *Eucalyptus leptophylla* (We)
- *Eucalyptus lesouefii* (We)
- *Eucalyptus leucoxydon* ssp *megalocarpa* (We)
- *Eucalyptus macrandra* (We)
- *Eucalyptus microcarpa* (Ge)
- *Eucalyptus oleosa* (We)
- *Eucalyptus odorata* (We)
- *Eucalyptus ovata* (Ge)
- *Eucalyptus petiolaris* (We)
- *Eucalyptus phenax* ssp *phenax* (Ge)
- *Eucalyptus pimpiniana* (We)
- *Eucalyptus platypus* (both forms: We)
- *Eucalyptus robusta* (Ge)
- *Eucalyptus rugosa* (We)
- *Eucalyptus saligna* (Ge)
- *Eucalyptus socialis* (We)
- *Eucalyptus viminalis* (both ssp Ge)
- *Frankenia pauciflora* (We)
- *Goodenia ovata* (Ge)
- *Goodenia varia* (We)
- *Hakea drupacea* (We)
- *Hakea leucoptera* (We)
- *Hakea nodosa* (Ge)
- *Hakea rostrata* (We)
- *Hakea salicifolia* (Ge)
- *Kunzea pomifera* (We)
- *Leptospermum continentale* (Ge)
- *Leptospermum coriaceum* (We)
- *Leptospermum lanigerum* (Ge)
- *Leptospermum polygalifolium* (Ge)
- *Leucophyta brownii* (We)
- *Lophostemon confertus* (Ge)
- *Melaleuca alternifolia* (Ge)
- *Melaleuca armillaris* (Ge)
- *Melaleuca bracteata* (Ge)
- *Melaleuca brevifolia* (Ge)
- *Melaleuca decussata* (Ge)
- *Melaleuca huegelii* (We)
- *Melaleuca lanceolata* (Ge, We)
- *Melaleuca microphylla* (We)
- *Melaleuca nesciphila* (We)
- *Melaleuca pentagona* (We)
- *Melaleuca uncinata* (Ge, We)
- *Melaleuca wilsonii* (Ge)
- *Myoporum insulare* (We)
- *Myoporum 'Monaro Marvel'* (We)
- *Myoporum parvifolium* (We)
- *Myoporum platycarpum* (We)
- *Olearia axillaris* (We)
- *Pittosporum phylliraeoides* (We)
- *Rhagodia spinescens* (We)
- *Scaevola crassifolia* (We)
- *Senna artemisioides* (all ssp. We)
- *Templetonia retusa* (We)
- *Westringia fruticosa* (We)

*These plants have been identified as potentially invasive in some areas
