

Plants tolerant of waterlogging

The plants listed here will tolerate short periods of waterlogging, however long periods on inundated (over one week) are likely to kill plants. Drainage of heavy clay soils can be improved by adding gypsum at planting time, and following this up routinely with top-dressing applications.

- *Acacia boormanii*
- *Acacia cardiophylla*
- **Acacia cyclops*
- *Acacia dealbata*
- *Acacia fimbriata*
- *Acacia floribunda*
- *Acacia glaucoptera*
- *Acacia howittii*
- *Acacia ligulata*
- *Acacia melanoxylon*
- *Acacia paradoxa*
- *Acacia pravissima*
- *Acacia retinodes*
- *Acacia salicina*
- *Acacia stenophylla*
- *Acacia verticillata*
- *Acacia vestita*
- *Acmena smithii*
- *Actinodium helianthi*
- *Adenanthos detmoldii*
- *Agonis flexuosa*
- *Agonis juniperina*
- *Agonis linearifolia*
- *Agonis parviceps*
- *Allocasuarina luehmannii*
- *Anigozanthos flavidus*
- *Anigozanthos viridis*
- *Astartea fascicularis*
- *Atriplex amnicola*
- *Atriplex rhagodioides*
- *Baeckea behrii*
- *Baeckea virgata*
- *Banksia attenuata*
- *Banksia ericifolia*
- *Banksia marginata*
- *Banksia occidentalis*
- *Banksia petiolaris*
- *Banksia robur*
- *Banksia spinulosa* var. *collina*
- *Bauera* species
- *Beaufortia sparsa*
- *Boronia clavata*
- *Boronia denticulata*
- *Boronia heterophylla*
- *Boronia molloyae*
- *Brachychiton populneus*
- *Brachyscome multifida* (forms and cultivars)
- *Brachysema celsianum*
- *Bulbine bulbosa*
- *Callistemon brachyandrus*
- *Callistemon 'Burgundy'*
- *Callistemon citrinus*
- *Callistemon citrinus 'Endeavour'*
- *Callistemon citrinus 'White Anzac'*
- *Callistemon 'Dawson River Weeper'*
- *Callistemon glaucus*
- *Callistemon 'Hannah Ray'*
- *Callistemon 'Harkness'*
- *Callistemon 'Kings Park Special'*
- *Callistemon 'Little John'*
- *Callistemon ' Mauve Mist'*
- *Callistemon pallidus*
- *Callistemon phoenecius*
- *Callistemon pinifolius*
- *Callistemon polandii*
- *Callistemon 'Reeves Pink'*
- *Callistemon rugulosus*
- *Callistemon salignus*
- *Callistemon sieberi*
- *Callistemon* sp. *'Baroondah'*

- *Callistemon* sp. 'Injune'
- *Callistemon* *viminalis*
- *Callistemon* 'Violaceus'
- *Callistemon* 'Western Glory'
- *Calothamnus* *quadrifidus*
- *Calytrix* *tetragona*
- *Casuarina* *cunninghamiana*
- *Casuarina* *obesa*
- *Ceratopetalum* *gummiferum*
- *Convolvulus* *erubescens*
- *Correa* *alba*
- *Correa* *decumbens*
- *Corymbia* *maculata*
- *Dianella* *longifolia*
- *Dianella* *revoluta*
- *Dichondra* *repens*
- *Diplarrena* *moraea*
- *Elaeocarpus* *reticulatus*
- *Eremophila* *bignoniifolia*
- *Eremophila* *divaricata*
- *Eremophila* *gibbifolia*
- *Eremophila* *longifolia*
- *Eremophila* *maculata*
- *Eremophila* *microtheca*
- *Eremophila* *polyclada*
- *Eremophila* *serpens*
- *Eucalyptus* *botryoides*
- *Eucalyptus* *camaldulensis* (all forms)
- *Eucalyptus* *cinerea*
- *Eucalyptus* *coolabah* ssp. *arida*
- *Eucalyptus* *cordata*
- *Eucalyptus* *cornuta*
- *Eucalyptus* *cosmophylla*
- *Eucalyptus* *crenulata*
- *Eucalyptus* *dalrympleana*
- *Eucalyptus* *gardneri*
- *Eucalyptus* *globulus*
- *Eucalyptus* *grandis*
- *Eucalyptus* *gunnii*
- *Eucalyptus* *kondininensis*
- *Eucalyptus* *largiflorens*
- *Eucalyptus* *leucoxylon* ssp. *pruinosa*
- *Eucalyptus* *macrandra*
- *Eucalyptus* *melliodora*
- *Eucalyptus* *microcarpa*
- *Eucalyptus* *occidentalis*
- *Eucalyptus* *ovata*
- *Eucalyptus* *perriniana*
- *Eucalyptus* *platypus*
- *Eucalyptus* *robusta*
- *Eucalyptus* *saligna*
- *Eucalyptus* *spathulata*
- *Eucalyptus* *viminalis* (both ssp)
- *Eutaxia* *microphylla* ssp. *diffusa*
- *Frankenia* *pauciflora*
- *Gahnia* *sieberiana*
- *Goodenia* *ovata*
- *Grevillea* 'Poorinda Peter'
- *Grevillea* *Poorinda Queen*'
- *Grevillea* *sericea*
- *Hakea* *nodosa*
- *Hakea* *salicifolia*
- *Hardenbergia* *violacea*
- *Hibbertia* *empetrifolia*
- *Hibiscus* *heterophyllus*
- *Hymenosporum* *flavum*
- *Hypocalymma* *angustifolium*
- *Hypocalymma* *cordifolium*
- *Isolepis* *nodosa*
- *Juncus* *kraussii*
- *Juncus* *pallidus*
- *Kunzea* *ambigua*
- *Lagunaria* *patersonii*
- *Leptospermum* *continentale*
- *Leptospermum* *lanigerum*
- *Leptospermum* *petersonii*
- *Leptospermum* *polygalifolium*
- *Lomandra* *longifolia*
- *Lophostemon* *confertus*
- *Maireana* *brevifolia*
- *Melaleuca* *acuminata*
- *Melaleuca* *alternifolia*
- **Melaleuca* *armillaris*
- *Melaleuca* *bracteata*
- *Melaleuca* *brevifolia*
- *Melaleuca* *decussata*
- *Melaleuca* *fulgens*
- *Melaleuca* *gibbosa*

- *Melaleuca halmaturorum*
- *Melaleuca hypericifolia*
- *Melaleuca incana*
- *Melaleuca lanceolata*
- *Melaleuca laterita*
- *Melaleuca linariifolia*
- *Melaleuca micromera*
- *Melaleuca nesophila*
- *Melaleuca 'Revolution Gold'*
- *Melaleuca spathulata*
- *Melaleuca squarrosa*
- *Melaleuca thymifolia*
- *Melaleuca uncinata*
- *Micromyrtus ciliata*
- *Myoporum acuminatum*
- *Olearia phlogopappa*
- *Olearia ramulosa*
- *Orthrosanthos multiflorus*
- *Patersonia* species
- *Poa* species
- *Pratia pedunculata*
- *Pultenaea daphnoides*
- *Restio* species
- *Scaevola humilis*
- *Scleranthus biflorus*
- **Sollya heterophylla*
- *Syzygium australe*
- *Themeda triandra*
- *Toona ciliata*
- *Viola hederacea*

* These plants have been identified as potentially invasive in some areas.
